GYANMANJARI INNOVATIVE UNIVERSITY (GMIU)

Project Report: Rule-Based College Inquiry Chatbot

Department of Information Technology • Academic Subject Assignment

Student 1: Dharmi Parekh (Enrollment: 241105060096)

Student 2: Yug Sarvaiya (Enrollment: 241105060121)

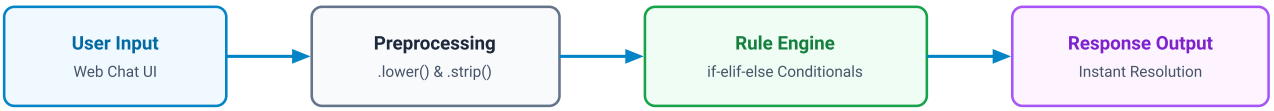

Live App: https://ai-ala3.streamlit.app/

Technology: Python, Streamlit Community Cloud

1. PROJECT ABSTRACT & OBJECTIVES

The objective of this project is to develop and deploy an interactive, automated college helpdesk assistant utilizing pure Python and deterministic conditional control structures (`if-elif-else`). The application eliminates repetitive front-desk queries by instant matching against academic domains including admissions, course selections, central library access, semester fees, examinations, and placement opportunities.

2. SYSTEM FLOW & ARCHITECTURE

3. ACADEMIC SUBMISSION CREDENTIALS

Roll No.	Student Full Name	Enrollment Number	Assigned Contribution
01	Dharmi Parekh	241105060096	Intent design, rule formulation & conversational logic validation
02	Yug Sarvaiya	241105060121	Streamlit user interface, GitHub repository & cloud deployment

4. VERIFICATION & SAMPLE CONVERSATION LOG

The table below records actual test inquiries submitted to the live chatbot hosted at **ai-ala3.streamlit.app** along with the evaluated responses:

#	User Query Submitted	Chatbot Answer Output	Matched Intent
Q1	"Hello / Good Morning"	Hello! Welcome to the GMIU Campus Assistant. How can I assist you with your academic inquiries today?	Greeting
Q2	"What engineering courses are offered?"	We offer programs across Engineering (IT, Computer, Mechanical, Civil), BCA/MCA, Science, and Pharmacy.	Academic Courses
Q3	"How can I take admission?"	Admissions for diploma, undergraduate, and postgraduate programs are open. You can apply via the portal.	Admissions
Q4	"What are the library timings and rules?"	The Central Library operates Monday through Saturday from 8:30 AM to 6:00 PM. Up to 3 books can be borrowed.	Library Desk
Q5	"Are there scholarship options for fees?"	Tuition structures vary by program. State schemes (MYSY, Digital Gujarat) and merit concessions are supported.	Fees & Accounts
Q6	"Where is the exam timetable published?"	Internal and end-semester timetables are published directly on the Student Web Portal.	Examinations
Q7	"Can you book a train ticket?"	I'm not sure about that. You can ask me about admissions, courses, fees, library rules, exams, or contact info.	Fallback Handler
Q8	"Thank you" / "Bye"	You're welcome! / Goodbye! Best wishes for your academic journey ahead.	Exit Protocol

5. CORE RULE IMPLEMENTATION SNIPPET (`APP.PY`)

```
      def get_chatbot_response(user_input: str) -> str: text = user_input.lower().strip() if text in ["hi", "hello", "hey"]: return "Hello! Welcome to the GMIU Campus Assistant." elif "course" in text or "branch" in text: return "We offer programs across Engineering, BCA/MCA, and Pharmacy." elif "admission" in text or "apply" in text: return "Admissions are open via our admissions portal or campus desk." elif "library" in text: return "Library is open 8:30 AM - 6:00 PM; borrow up to 3 books." else: return "I'm not sure about that. Ask me about admissions, courses, or fees."
```

6. CONCLUSION

The deployed chatbot at **https://ai-ala3.streamlit.app/** fulfills all criteria outlined in the course syllabus: executing conditional logic in Python without latency, maintaining high clarity, and providing a direct web interface for submission.
